

## STILL NO DOUBT

Press-info "Still Rockin`"

"Still Rockin`" is not only the title of the new and meanwhile sixth album of the Wilhelmshaven hard rock formation STILL NO DOUBT, but also describes the credo of the group in a concise and sustainable way.

Launched in the early 1990s by the two guitarists Guido "Sir Marlowe" Albrecht and Uli "Gibson" Hoffmann, the five thoroughbred rockers are still very active and, above all, creative, because they are not a cover band, but rather compose and produce her very own pieces.

Sir Marlowe and Uli Gibson Hoffmann are mainly the creative minds that compose the lyrics, riffs, and melodies of the unique and terrific titles. And so for that the whole thing goes really hardrocklike on, bassist Rüdiger "Rudi" Pfaff and drummer Lars "Chief Larsen" Jackwerth give the songs the inimitable and solid groove.

Proud 17 titles, eleven new compositions and six revised and newly arranged classics of the previous albums, includes the album.

It took almost four years from the first rehearsals to the finished album, many hurdles had to be overcome, especially a surprising change of the singer.

The new and the same time first singer from the founding days Jörg "Schorsch" Theilen did a first-class job here and gives the band a really expressive and recognizable voice.

Noteworthy here is not just the title "Pictures Of War", an opulent rock ballad, sound-powerful and with depth that impressively describes the everyday madness of war and terror, the television images present us up close.

Recorded in the NFR studio by Holger Thielbörger, who has also significantly refined the last Anvil and U.D.O. Discs, this album features around 70 minutes of hard rock from the finest, hand-made, straightforward, honest.
